

TRI CITIES SKIN AND CANCER

What do our Patients want?

In a study by the MAYO Clinic, patients listed the traits that they favor in a physician:

Confidence:

"The doctor's confidence gives me confidence."

Empathy:

"The doctor tries to understand what I am feeling and experiencing, physically and emotionally, and communicates that understanding to me."

Humanity:

"The doctor is caring, compassionate, and kind."

Personality:

"The doctor is interested in me more than just as a patient, interacts with me, and remembers me as an individual."

Forthrightness:

"The doctor tells me what I need to know in plain language and in a forthright manner."

Respect:

"The doctor takes my input seriously and works with me."

Thoroughness:

"The doctor is conscientious and perseverant in working to resolve my condition!"

Perseverance

At Tri Cities Skin & Cancer, we never give up on our patients!

You can count on our commitment to achieving the best outcomes for each patient.

It's our belief that knowledge is gained through experience, so our dermatologists and staff actively work with patients to provide solutions that meet their unique needs.

We offer our patients expert medical knowledge and a willing attitude to problem solve!

*We've got ALL
the OPTIONS!*

10 TREATMENTS OFFERED AT
TRI-CITIES SKIN & CANCER & THE LASER CENTER

There are many treatment options to address multiple skin concerns, including brown spots, redness, veins, wrinkles, and many more! These should be customized for each individual to reach their healthy skin goals.

Ultimately, each individual is different in their concerns and what bothers them. We have many different treatment options to make sure we provide you with the most updated and effective choices.

TREATMENT OPTIONS OFFERED AT
TRI-CITIES SKIN & CANCER.

Non-Invasive laser treatments can effectively treat “sun spots”, facial veins, and hair removal.

Specialized acne scar treatment options can treat any type of acne scars. Effective treatment options include microneedling, TCA Cross method, CO2 laser, subcision method, and stitching the scar closed.

CO2 Laser Resurfacing is effective in treating sun damage, wrinkles, acne scars, surgical scars.

Chemical Peels provide a chemical exfoliation to achieve or maintain healthy skin. We offer superficial peels for sensitive skin as well as more aggressive peels.

Hair Restoration can be done if caught early in the process. Many factors contribute to hair loss so a consultation is recommended to determine if Plasma Rich Protein (PRP) treatment would be beneficial.

Injectable Dermal Fillers are effective in replacing lost volume in cheeks, sculpting jawline, filling in wrinkles, and increasing lip volume.

Neuromodulators such as Botox or Jeuveau are used to relax expression lines. Typical areas treated are forehead, frown lines, and crows’ feet.

Threading is done using either barbed or smooth threads. Threads are used to “lift” areas such as cheeks, jawline and smooth threads can be used to smooth out wrinkles.

Skincare is a must if you want healthier skin. Medical grade skincare is designed to give you the highest ingredients to address your skin concerns with the direction and guidance from a professional.

Advanced LEDPhototherapy

AURORA™

AURORA™ is a revolutionary LED Phototherapy device intended to treat a variety of dermatological (skin) conditions in a fast, safe, and efficient manner without the use of biologic or topical ointments.
